

Naheed K. Nenshi, Mayor

PROCLAMATION

Smart Irrigation Month is an initiative to increase awareness of the value of efficient water-use and water-saving products, practices and services. There are various ways that businesses and consumers may actively participate in smart irrigation practices.

Whereas: Using water wisely reduces costs and infrastructure needs and protects our community's water supply for generations to come;

Whereas: The City of Calgary's *Water Efficiency Plan* identifies actions all water users can take to ensure we're always choosing solutions that use and waste less water;

Whereas: Calgarians are encouraged to adopt smart irrigation practices to support efficient use of our precious water resource and contribute to our city's resiliency to climate change.

On behalf of City Council and the citizens of Calgary, I hereby proclaim the month of July 2021 as:

"SMART IRRIGATION MONTH"

NAHEED K. NENSHI
MAYOR
