

Jyoti Gondek, Mayor

PROCLAMATION

Smart Irrigation Month increases awareness of the value of efficient water-use, including water-saving products, practices, and services. By implementing smart irrigation, consumers can realize environmental, social and economic benefits, while keeping their outdoor landscapes healthy without overwatering.

Whereas: Adopting water smart habits is essential to protecting and extending our community's water supply, especially during the warm summer months;

Whereas: The City of Calgary's *Water Efficiency Plan* identifies actions that everyone can take to ensure we're always choosing solutions that use and waste less water;

Whereas: Calgarians are encouraged to support the efficient use of our precious water resources contributing to our city's resiliency to climate change.

On behalf of City Council and Calgarians, I hereby proclaim July 2024 as:

SMART IRRIGATION MONTH

JYOTI GONDEK
MAYOR
